

Meeting held in Breakout Room 2 in WPH on March 1st, 2025.

- Focus on palm tree as background as a customer need that needed to be met
- Customer wanted a four main webpages:
  - Home page that displayed the logo
  - Car inventory with the ability to filter by type
    - Display the make, model, year, price, some main features, and photos
  - Contact page with the ability for customers to leave name, phone number, email address, and a message
    - Display business hours, location map, and phone/email information
- Apex Motors website was a good example
- Since he wanted an ability to add cars, we created a website from the administration view
- Customer wanted logo to appear in website browser tab

Home page

- Client wanted the business hours and the location information to be more obvious and bigger to the clients when first accessing the website reformatted to suit so.
- Wanted the slogan to include the business name and be easier to read
- Include a view inventory button
